

# HAVE YOU HEARD ABOUT THE REAL **ORBÁN**-PLAN?!

Orban is dismantling the EU enjoying EPP membership.  
European values are his **enemy**.

Viktor Orbán in 1999:

„Not joining the EU is not a tragedy.  
There is life outside the EU as well.”

Fidesz EP-elections programme (2014):

„We cannot expect the EU to force member states to follow norms while refraining to give Brussels the tools to enforce this - even if this will curtail our sovereignty.”

Viktor Orbán in 2012:

“Europe will soon be like alcohol: it aspires to achieve great things but won't let us reaching them.”

Viktor Orbán in 2012:

“We won't be a colony”

László Kövér, the Speaker of the House in 2014:

“(…) we should really start thinking about how to slowly back out from this all”

Zoltán Kovács, government spokesperson in 2016:

“If the question of quitting the EU on a referendum was asked in the context of migration, I would vote yes.”

Zsolt Bayer, journalist, prominent Fidesz-member in 2017:

“We have to leave the Union, this stinking, scabby piggery. Back the hell out of it, close our borders and let them rot where they are”

Viktor Orbán, Fidesz-congress, 2017:

“Today once again, an empire is threatening us. We are standing in the way of a plan that wants to eliminate nations as such, and aims to create a mixed population in Europe. We are standing in the way of a financial and political empire that wants to fulfil this plan regardless the price. Let us be clear: in order to fulfil the Soros-plan, they want to wipe out governments that put their national interests first (...) what we did not tolerate during Soviet times, we will not tolerate now when the Soros-empire is in full swing. We will defend our borders, we will stop the Soros-plan, and we will win this battle eventually.”

János Lázár, Minister of the PM's office in 2016:

“I could not wholeheartedly vote for EU membership (...) If we held a referendum I would not vote, or vote no.”
